PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

The Shepetovka Army Barracks Slavuta covers approximately 685 acres and is located in the eastern section of Slavuta immediately north of the Goryn River (Figure 1).

The semi-secured installation is road served and has access to the Berdichev-Rovno rail line.

It contains 23 multistory barracks, 9 multistory administrative buildings, 6 single story administrative buildings, two multistory probable maintenance buildings, one probable single

story maintenance building, seven vehicle storage buildings, 46 storage buildings, six possible ammunition storage buildings, 24 support buildings, and 23 dependent housing quarters.

The installation has two athletic fields and one drill field and reviewing area.

Summer and winter photography indicate that this installation is active and in use. The installation was covered by ten KEYHOLE missions between [REDACTED]

DESCRIPTION OF INSTALLATION

Railroad Service

The installation has access to the Berdichev-Rovno rail line.

Road Service

The installation is served by improved roads. Unimproved dirt roads run throughout the area.

Administrative and Troop Housing Areas

Area D1 contains 13 multistory barracks, two multistory and three single story administrative buildings, five storage buildings and one support building.

Area D2 contains 10 multistory barracks, seven multistory and two single story administrative buildings, three storage buildings, and 11 support buildings.

General Storage Areas

Area E1 contains 25 various-sized multipurpose storage buildings and eight support buildings.

Area E2 contains nine storage buildings probably used in support of the equipment storage area.

Ammunition Storage Areas

Area F1 contains two 65- by 35-foot storage buildings, one 90- by 35-foot storage building, and one 120- by 35-foot storage building, all possibly used for ammunition storage.

Area F2 contains two 100- by 35-foot storage buildings possibly used for ammunition storage.

Other Buildings and Facilities

Twenty-three buildings probably for dependent housing are located in Area H.

Equipment Storage/Maintenance Areas

Area J1 contains one 270- by 80-foot probable maintenance building, two 175- by 60-foot multistory probable maintenance buildings, two 170- by 35-foot storage buildings, and two support buildings. The area appears to be connected with vehicle maintenance work.
